California Department of Education School Accountability Report Card Reported Using Data from the 2014-15 School Year

Published During 2015-16

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

About Our School

Building on our commitment to high-quality education for all children, Para Los Niños opened the charter school in September of 2002 with an entering class of 60 kindergarteners. Now in its thirteenth year, the school has over 380 children from kindergarten to fifth grade. Here at Para Los Niños Charter, we are an elementary school servicing the working families in downtown Los Angeles; we strive to cultivate and celebrate the potential within each child and equips students with the skills, knowledge and confidence necessary to pursue excellence.

Accordingly, at Para Los Niños, we are intensifying our focus on the whole child, understanding that children live and learn with the context of a family; and a family lives and learns within the context of a community. We have therefore created an approach to supporting children and families which addresses each child's needs in the context of his/her family and community, providing comprehensive and accessible supports in spaces where children and families can best and most readily access them.

In an effort to support our students and their families, we have an extensive After-School program that serves our K-5 grade students. The program is designed to provide all students with a safe and engaging environment. All of our after-school activities support general education core curriculum with academic enriching activities to reinforce and enhance academic achievement. Our goal is to improve the academic performance and scholastic success of students in the program by providing a high-quality academic programming during after school. To meet this goal, the program offers student's homework support, academic enrichment, recreation, enrichment activities, and linkages to other Para Los Niños Services.

Professional Development – Most Recent Three Years**Professional development**

Our teachers actively seek opportunities for professional growth to provide effective instructions with focus on student learning. Staff development is based on the assessed need of the school population. Teachers meet with the principal and assistant principal every Tuesday from 2:00-3:30pm and every Thursday from 2-4:30pm. During this time teachers are trained in content area and plan in groups according to grade level. Teachers also participate in 3 days of additional planning during the school year. 10 full days of training and planning are dedicated before and after the school year begins. These training include workshops with Achieve3000, Spatial and Temporal Math, Safety Plan, Pre-Post Assessment data, Bilingual Literacy, Illuminate internal Data Analysis, Unpacking the Common Core ELA/Math, Responsive Classroom, ELD, amongst other important topics. Teachers also take part in art instructional training to enrich subject areas such as social studies, science, through art, thus assisting in fulfilling the schools Reggio School Standards.
