Youth Workforce Services

Youth and adults are provided opportunities and support to complete high-school, move on to college, build their careers and engage in their community each year. Through workshops, mentorship, internships, and case management, our staff helps to open new opportunities for students and families to become self-sufficient and reach their full potential.

2,000+

Youth ages 14-24
served annually

100%

Participants in the
college success program
remained in school
